A message from the Board Chair & CEO

Welcome to Cancer Council Tasmania’s 2025-26 Impact Report.

Within these pages, we share how our mission has been brought to life over the past year through support, prevention, advocacy, research and the strength of connection across our Tasmanian community.

Our mission, to reduce the incidence and impact of all cancers for all Tasmanians, continues to guide every decision, partnership and program across our organisation. This Impact Report provides insight into how we have delivered on that mission through the provision of essential supports, trusted information, prevention activities, advocacy and research investment.

Over the past 12 months, over 2,240 Tasmanians impacted by cancer received support through over 4,170 occasions of care. This included the distribution of over 220 wigs, and more than \$185,000 in financial assistance provided to adults, children and young people impacted by cancer. It also includes the growth of our emotional support programs, including our new counselling service, which supported 135 Tasmanians in its first six months.

For Tasmanians needing to travel to treatment, our transport2treatment service remained a vital lifeline, helping 566 clients attend more than 7,400 cancer treatment appointments thanks to our team of 78 extraordinary volunteer drivers, who travelled an estimated 369,000 kilometres across our island.

The figures throughout this Impact Report are important, but behind each trip, service and conversation is a person, family or carer supported during an already difficult time.

Our efforts to reduce the number of Tasmanians receiving a cancer diagnosis remained central to our impact. Through our SunSmart program, community education sessions and the distribution of more

than 3,620 evidence-based cancer prevention resources, we continued to provide practical information and support to help Tasmanians make informed choices, reduce their cancer risk and contribute to healthier communities.

Our advocacy work continued to amplify the voices and experiences of Tasmanians affected by cancer, helping to inform government policy, strengthen systems and keep cancer prevention, early detection, equitable access to treatment, supportive care and research on the public agenda.

We maintained our commitment to locally focused cancer research, supporting clinical trials and continuing our partnership with the University of Tasmania through our Postdoctoral Research Fellowship, the Evelyn Pedersen PhD Scholarship and related projects. These investments reflect our belief that Tasmanian research has an important role to play in improving cancer outcomes.

Another milestone contained in these pages was the 30th anniversary of Quit Tasmania's tobacco control work. With a refreshed 'QuitTas' identity and website, 2026 marked the next chapter in this long-standing program, supporting people to quit smoking and helping prevent uptake of tobacco and related products, including e-cigarettes.

Looking back, the word that best captures the year is '**connection**'. It was seen through the acts of service and commitments, large and small. From the conversations during a drive to treatment, to the warm welcomes offered in our cancer support centres. It was through the generosity of our donors, fundraisers and the Tasmanians who chose to leave a gift to us in their Will. It was through the partnerships and sponsorships that allowed us to extend our reach, and the shared effort of the clinicians, volunteers, staff, researchers and every-day Tasmanians joining us in our determination to make a difference.

This shared purpose is a reminder that none of our work happens alone. Every donation, sponsorship, grant, fundraising event, volunteer hour, research paper, and community conversation is taking us one step closer towards achieving our vision of a cancer-free future.

We give our sincere thanks to every Tasmanian who has supported us over the past 12 months, including our donors, sponsors, partners, health professionals, researchers, community organisations and volunteers, as well as our staff, Board, and committee members. Thank you for the expertise, care, resources and commitment that is critical to our work.

Most of all, we acknowledge every Tasmanian who has connected with Cancer Council Tasmania this year, whether by seeking support, attending a program, accessing information, or sharing your experience.

Cancer Council Tasmania is here for all Tasmanians. All cancers.

30 years of helping Tasmanians quit and preventing uptake

This year marked 30 years of Quit Tasmania leading tobacco control efforts through evidence-based prevention, support, research and advocacy programs. Our vision is for a Tasmania free from tobacco and related products, including e-cigarettes (vapes), and their harmful effects.

We celebrated this milestone at Parliament House while launching our refreshed identity as QuitTas (formerly Quit Tasmania), alongside a new website designed to make it easier for Tasmanians to access support, information and resources.

QuitTas is a program of Cancer Council Tasmania and funded by the Department of Health Tasmania.

Our Quitline remains at the heart of our work, delivering client-centred support to people across all ages and regions of Tasmania.

“Quitline have been so kind, remarkable and an amazing resource. I’m grateful.” – Tasmanian Quitline client

QUIT SERVICES

- **2,986** new and returning Quitline contacts.
- In 2025-26, additional funding enabled us to provide free nicotine replacement therapy (NRT) such as patches to support **147** clients and expand our service to include Web Chat and SMS.
- Over **17,000** QuitTas website users.

ANTI-TOBACCO SOCIAL MARKETING CAMPAIGNS

- **57%** of Tasmanians were exposed to campaign messages.
- **88%** of Tasmanians who smoke/recently quit were aware of options to support them to quit smoking.
- **84%** of Tasmanians who smoke took some form of action as a result of seeing an anti-tobacco TV ad.

HEALTH AND COMMUNITY ENGAGEMENT

- **107** Tasmanian services, schools and workplaces engaged with us for information, support and training.
- Over **1,600** resources were distributed.
- **2,901** health and community service workers received our newsletters.

Helping reduce cancer risk

We're working in partnership with our community to help Tasmanians reduce their cancer risk with a focus on:

- Being **SunSmart** – reducing the risk of skin cancer by promoting sun protection through information and resources, public awareness campaigns and delivering the SunSmart program with Tasmanian schools and early childhood services.
- Encouraging **early detection** – through community education around cancer symptom awareness and promoting participation in the national cancer screening programs.
- Creating **safer workplaces** – by helping Tasmanian organisations understand the occupational cancer risks that may exist in their workplaces, and how to reduce them.
- Building **relationships and collaborating** with regional community organisations and workplaces, delivering information in places where Tasmanians feel connected.

IMPACT AT A GLANCE

- **46%** of schools and **76%** of early childhood services in Tasmania are members of our **SunSmart schools and early childhood program**.
- **58 community education sessions** were delivered in communities that may be at a higher risk of a cancer diagnosis or experience barriers to early detection.
- **3,621 resources distributed statewide** providing evidence-based accessible cancer prevention information for Tasmanians.

SPOTLIGHT: SUPPORTING OUR CULTURALLY AND LINGUISTICALLY DIVERSE COMMUNITIES

One of our strategic priorities is to deliver evidence-based, culturally relevant services, tools and resources that meet the needs of our culturally and linguistically diverse communities. This year, in collaboration with Red Cross, Migrant Resource Centre and the Punya Foundation our team delivered **10** community education sessions, focussed on cancer prevention and early detection.

Feedback has been positive, and the sessions have helped our team strengthen community connections and deepen their understanding of local needs.

"The students asked me to pass on their sincere thanks to everyone involved in organising and delivering the session. It was wonderful to see how engaged they were throughout. The biggest compliment of all came at the end, when they asked if there could be another talk or even a 'Part 2' because they wanted to learn more!"

– Red Cross and Max Solutions

Providing cancer support services to our community

Our trained health professionals throughout the state provide essential services for all Tasmanians impacted by all cancers. These include personalised emotional, practical, physical and information support, delivered through our support centres, online, over the phone, in hospitals and other community settings.

THE YEAR IN NUMBERS

- **1,665** new clients.
- **2,246** individuals supported.
- **4,175** supports.
- **221** wigs distributed.
- **2,772** group and program attendances (South 977, North 1,387, North West 121, Not disclosed 287).
- **224** Tasmanians contacted 13 11 20, the national Cancer Council helpline.
- **24** workshops/community visits and in-services around Tasmania providing education and support to around 400 health professionals and community members.
- **20** Consumer Advisory Group members statewide, 4 meetings throughout the year.
- **11,749** cancer information resources distributed.

HIGHLIGHTS

- Introduced a statewide counselling role, supporting 135 people during the six-month pilot, with an average of two appointments per client.
- Contributed to the rollout of Cancer Connect, an Australian Government funded cancer support and navigation program.
- Reviewed the supportive care volunteer role to align with best practice and current Tasmanian needs, with changes planned for FY26/27.

- Secured a Prostate Cancer Foundation Australia grant and delivered a statewide seminar attended by more than 100 people in person and online.

FROM OUR CLIENTS

“The counsellor was empathetic and knowledgeable and helped me navigate some early diagnosis challenges.”

“It’s an opportunity to meet others experiencing similar issues.”

We support people at every stage of their cancer experience. When Suzi was diagnosed with Stage 4 breast cancer and had to stop working, we provided immediate financial assistance, practical items like a wig and free hospital parking and shared conversations to help her through the most difficult times.

“I’m so grateful for the free support that Cancer Council Tasmania gave me. Without their help, it’s possible I wouldn’t be here today.” – Suzi

Suzi and Emma

Connecting Tasmanians to cancer treatment

Our transport2treatment service (t2t) continues to provide no-cost transport to Tasmanians facing barriers getting to and from their cancer treatment appointments. We offer a safe and supportive environment for clients that is only possible through the huge contribution of our team of **78** amazing volunteer drivers whose ages range from **33** years to **84** years. Many of them have been touched by cancer, either personally or through a loved family member or friend, giving them a unique sense of compassion for the people we help.

“We’re so grateful to the volunteer drivers who took us to John’s treatment. As John is blind, I travelled with him and we have been completely bowled over by the kindness, consideration and sense of humour shown to us on every trip! Our experience has restored our faith that so many people are prepared to help others in such a sympathetic and dedicated way.” – John and Trish – t2t clients

t2t supports a broad cross-section of our community, from our youngest client at **15** to our oldest at **100** years of age and from culturally and linguistically diverse backgrounds.

HIGHLIGHTS

- We transported **566** individuals, of which **451** were new clients to the service.
- **7,403** total return trips.
- Average round trip distance - **55km**.
 - Launceston and Hobart average - **40km**.
 - North West average – **87km**.
- **52%** of registered clients are in Hobart, **27%** in the North West and **21%** in Launceston.
- Our volunteer drivers logged over **369,000kms** of driving.
 - **14%** total distance travelled in Launceston.
 - **38%** along the North West coast.
 - **47%** in the Hobart area.
- We renewed a two-year MoU with Community Transport Services Tasmania to expand transport support into areas too far from where our cars are based, broadening our services to more regional areas.

FINANCIAL ASSISTANCE

A total of **456** financial assistance payments (scholarships and vouchers) were distributed across Tasmania to the value of **\$189,957.20** plus **\$300** in donated vouchers. These went to assist:

- **313** adults diagnosed with cancer.
- **136** children (either diagnosed with cancer or impacted by a family member diagnosis).
- **7** scholarships to young people impacted by cancer.

Advocating for change

We continue to drive systemic change that reduces the incidence and impact of all cancers for all Tasmanians. Through our 2026/27 Budget Priority Statement, we successfully advocated for increased investment in:

- A multi-year youth-focused campaign to address nicotine addiction, building on the success of our award-winning Don't Let Vaping In campaign.
- Supporting the implementation of a requirement for all Tasmanian schools to maintain active SunSmart memberships.
- Capital funding to relocate Cancer Council Tasmania to Burnie to strengthen cancer support services across North West Tasmania.

When this funding was announced in June 2026, young Tasmanian, Harrison, joined us and Tasmanian Government representatives to share his lived experience and speak to the media about the impact vaping can have on young people. He said, ***“I’ve seen a real difference in myself while not vaping anymore.”***

Throughout 2025-26, we continued to advocate for evidence-based cancer prevention measures and improved support services. We worked closely with government, health and community sector partners, and colleagues across the Cancer Council Federation, using a range of approaches including media engagement, written submissions, events and meetings.

Some examples of this work include:

- Submission on the Health Revolution: 20-Year Preventive Health Strategy.
- Submission on proposed reforms to Tasmania’s Liquor Licensing Act.

Alison Lai, CEO, Harrison and the Hon. Bridget Archer MP.

- Joined coalition of health and community organisations to influence Liquor Licensing Act review.
- QuitTas Submission on Public Health Amendment (Prohibited Tobacco and Other Products) Bill 2026.
- Submission to Senate Inquiry into the Illegal Tobacco Crisis in Australia.
- Submissions to local councils advocating for shade as critical infrastructure for skin cancer prevention:
 - Droughty Peninsula Structure Plan.
 - Clarence City Council Open Space Strategy.
- Letter to Work Health and Safety Minister supporting proposed workplace exposure limits to limit occupational cancer risk.
- Informed the development of the Department of Health’s statewide Tasmanian Cancer Strategy with a focus on primary prevention, screening and early detection and supportive care.

Investment in local cancer research

We continue to be one of the largest funders of locally focused cancer research. This effort is supported by the generosity of the Tasmanian community through donations, fundraising and research specific bequests. Research is core to our mission and funds continue to be allocated based on expert review through our Clinical and Research Advisory Group (CRAG), formerly Scientific and Research Committee (SARC).

In 2025-26, Dr Emma Wilkinson was awarded the CCT/UTAS Health Postdoctoral Research Fellowship. Having completed her Bachelor of Biotechnology and Medical Research, Honours degree and PhD at the University of Tasmania, Dr Wilkinson is using her fellowship to investigate a novel therapeutic approach for glioblastoma, one of the most aggressive and hard-to-treat forms of brain cancer.

Throughout the year we invested over **\$500,000** into research projects and initiatives, including:

- **\$90,000** towards data management clinical trials at the Royal Hobart Hospital and Launceston General Hospital.
- **\$30,000** awarded to Dr Liesel Fitzgerald for the project *Using 'mini prostates' to determine how rare prostate cancer mutations function.*
- **\$20,000** awarded to Dr Nicholas Parkes for the project *Haematological Malignancy in Tasmania: Survivor's voices.*
- **\$100,000** for the CCT/UTAS Health Postdoctoral Research Fellowship.
- **\$45,000** for the Evelyn Pederson PhD scholarship. Current supported projects include:
 - Jasmine Bacon, *Molecular drivers of metastasis.*
 - Samuel Anderson, *Discovery of rare cancer risk variants.*
 - Shiona Kondo, *Epigenetics of brain cancer.*

- Investment into the Shape of Australia Survey to ensure Tasmanian representation and reporting. The survey is run through the Centre for Behavioural Research in Cancer and collects information on public attitudes and behaviours relating to a range of public health issues.
- A collaboration with the Tasmanian Cancer Registry to investigate supportive care needs for Tasmanians diagnosed with cancer. This project has commenced in collaboration with the UTAS School of Psychology.

OTHER RESEARCH HIGHLIGHTS

- Release of key findings from the evaluation of our transport2treatment service during National Volunteer Week in March 2026.
- Revival of the Jeanne Foster Public Talks in May 2026, with a sold-out event focused on the commercial determinants of health. Coinciding with the Public Health Association of Australia's Preventive Health Conference, the event brought together local researchers, students, policymakers, and practitioners across government and community organisations.

A powerful year of community-led impact

To everyone who attended an event, volunteered, sponsored, or donated, we thank you. Your support drives our fundraising success and enables Cancer Council Tasmania to continue delivering vital services, prevention programs, advocacy and life-changing research for all Tasmanians impacted by cancer.

DRY JULY

Online challenge during July

• **\$36,092** raised

DAFFODIL DAY

Stalls and Daffodil Dip challenge statewide

• **\$255,675** raised and
4,320 bunches of daffodils sold

GALA EVENTS

Held in Devonport, Launceston and Hobart

• **\$509,422** raised with
814 guests in attendance

WOMEN'S 5KM WALK / RUN

Physical event in Launceston

• **\$322,556** raised through
3,525 wonderful walkers/runners

THE LONGEST DAY

At golf courses statewide

• **\$138,220** raised through
10 golf clubs, **91** teams and
272 golfing legends

RELAY FOR LIFE

Events held around the state

• **\$524,571** raised through
2,400 passionate relayers

THE MARCH CHARGE

Facebook fundraiser

• **\$9,987** raised with **334** chargers

AUSTRALIA'S BIGGEST MORNING TEA

Everywhere during May and June

• **\$449,822** funds raised through
580 amazing hosts

GENERAL DONATIONS

All year round through regular and workplace giving, cash appeals, in-memoriam and donations.

• **\$489,018** raised by countless generous Tasmanians.

COMMUNITY FUNDRAISING

All year round

• **108** community groups, business donation boxes and individual superstars raising **\$266,323**.

Community fundraisers making a difference

We are continually inspired by the generosity of our community. Last year alone, more than **108** community fundraisers raised **\$266,323** and dedicated their time, energy and passion to raising funds for Tasmanians affected by cancer. From morning teas and sporting challenges to school events, these fundraising efforts play a vital role in helping us support those impacted by cancer across our state.

One outstanding example is Sharon Shirley and Tassie Dancers Against Cancer (TDAC).

Founded by Sharon from Encore Dance after cancer touched the lives of too many people within her community, Tassie Dancers Against Cancer has become a much-loved annual event that brings together dancers, performers, families and supporters from across Tasmania. What began as a desire to make a difference through the power of dance has grown into an extraordinary community movement in Hobart, TDAC has created opportunities for dancers of all ages and abilities to perform in a supportive, non-competitive environment while raising funds for Cancer Council Tasmania.

Over the years, TDAC has raised an incredible **\$368,000**, including more than **\$46,000** in 2025 for Cancer Council Tasmania. This remarkable achievement is a testament to Sharon's dedication and the unwavering support of Tasmania's vibrant dance community.

We simply couldn't do what we do without the support of community fundraisers like Sharon. Their generosity helps fund cancer research, prevention programs and support services for Tasmanians affected by cancer. Your passion, commitment and generosity are making a real difference in the fight against cancer.

Our generous sponsors and supporters

We extend our heartfelt thanks to everyone who has donated, fundraised, sponsored or contributed in-kind services in support of our mission. We cannot list every single supporter, but we'd like to acknowledge the following individuals and organisations that have provided significant financial support to help fund and strengthen our programs, services, campaigns and events throughout the 2025-26 financial year. We are deeply grateful for your generosity.

A lasting legacy through gifts in Wills

This financial year, Cancer Council Tasmania was honoured to receive **\$1.9M** in bequests from generous supporters who chose to make a lasting difference through a gift in their Will. We proudly acknowledge and celebrate these individuals, whose foresight and compassion will help strengthen our impact for generations to come. M R Broadby, E G Brown, G P Cherry, S M Fisher, P A Fortune, P Gibson, S J Legosz, G J Long, G J Kerrison, A A McIvor, R B Rainey, E Ridler, G E Rider, L D Russell, K V Scarr, B Simmons, M Sipka, M K Smith, G N Stebbings, G F Tunks, N Willing, P Wilson, D E Foster, P Henry, R O Moore. M Creasy, J E Hughes. Their legacy will continue through Cancer Council Tasmania's work in cancer research, prevention, advocacy, and support services across our community.

The power of volunteer support

Volunteers are at the heart of Cancer Council Tasmania, contributing their time, skills and compassion across every part of our organisation. From driving patients to lifesaving treatment through our transport2treatment program, providing kindly assistance to those visiting our Cancer Support Centres and Opportunity Shop, organising walking groups, committee members helping to coordinate our fundraising events, through to advising on our consumer and governance committees and volunteer Board, their contributions are invaluable.

We are also supported by many volunteers who generously give their time at our major events such as the Women's 5km Walk / Run, Relay For Life, Daffodil Day stalls and our Gala Balls, helping us raise vital funds and awareness. Whether volunteering regularly or for a single event, their dedication helps ensure Tasmanians affected by cancer can access the support they need when they need it.

One volunteer who exemplifies this commitment is Kevin, who recently retired from our transport2treatment program after close to two decades of weekly service. Kevin became a familiar and reassuring presence for countless patients travelling to treatment appointments, offering not only transport but kindness, conversation and support along the way.

In recognition of his outstanding contribution, Cancer Council Tasmania named one of our transport vehicles in his honour. Kevin's legacy reflects the lasting impact volunteers have on the lives of people affected by cancer and the vital role they play in our community every day.

Our goals and values

Our Vision is for a cancer-free future.

Our Purpose is to reduce the incidence and impact of all cancers for all Tasmanians.

Our Goals

Prevent: Empower and support all Tasmanians to reduce their cancer risk.

Support: Provide equitable access and quality support services for all Tasmanians impacted by a cancer diagnosis, including their family and loved ones.

Research: Invest in research that reduces the incidence and impact of cancer and improves the lives of Tasmanians.

Advocate: Pursue systemic change to reduce the incidence of cancer to increase survival rates and improve the wellbeing of Tasmanians.

Leverage: Have a strong organisation and internal systems that enable us to deliver impactful outcomes for the Tasmanian community.

Our Values

Generosity. We give generously of ourselves. We value and appreciate the generosity of the community.

Integrity. We are accountable. We do what we say we will do.

Collaboration. We actively work together to make a real difference.

Courage. We recognise courage in others and are inspired to speak out and step up.

Innovation. We encourage innovation and embrace thought leadership.

We strive for excellence

It takes many hands to take on cancer. Every day more than **11** Tasmanians receive a cancer diagnosis. Every year around **1,200** Tasmanian families deal with the loss of a loved one through cancer. Every Tasmanian has a cancer story.

The Cancer Council Tasmania Team have an equity focus, working with organisations that support Aboriginal and Torres Strait Islander people, people from a culturally and linguistically diverse background, those facing social disadvantage, the LGBTQTAI+ community, and the general public.
